

DAUD/ nDARS Meeting Notes

3/14/2007

Attending: Robert Kilgore (CIS), Rosanna Delirio Carrera (UARS), Randy Cirilo (RO), Bonnie Allen (AIS), Santhana Srinivasan (AIS), John Cramer (AIS), Bernie Shutman (AIS), Nick Reddingius (OIT)

1. Robert announced the hiring of an nDARS encoder who will start in 2 weeks.
2. RK212 – Santhana presented his analysis on the dynamic updates that occur on the CAR screen when RK212 is updated. RK212 is used to track a series of requirements. Initially loaded with a value indicating a requirement must be met. When the requirement is met the value is changed to a satisfied value indicating how the requirement was met.
3. Several nDARS to SR interface rules were established including;
 - nDARS will always honor satisfied values
 - nDARS will look to SRDB for existing value and may need it's own logic for further processing
 - No CAR dynamic logic needs to be changed
4. Given the above rules, Bonnie advised that the interface component is ready for testing. A use case approach should be used for testing wherein the users of the system who are familiar with the updates should begin testing by changing values on both nDARS and CARS to begin to flush out any logic nDARS may need. Rosanna mentioned that the Evaluators in UARS are familiar with making updates to the CARS screen.

Next up:

- RK212
 - Robert will bring laptop, Rosanna will bring Evaluators and we will run some preliminary testing
- Admissions Interface
- Repeat Processing vs Sequence Violations

Follow Up Items:

Task	Who	Date Added	Comment
Look for additional documentation that is believed to be available on the SR1 CAR screen.	John	1/24/07	2/14 Not started

DAUD/ nDARS Meeting Notes
3/14/2007

On the RK302, indicate which fields will be sent to CAR by nDARS and those that won't.	Marietta/Santhana	1/17/07	2/14 Not started
On the RK302 "Processes outside CAR" spreadsheet; explain more about the column; "New Value from Transfer Credit Processing"	Marietta/Santhana	1/17/07	2/14 Not started
On the RK302 "Processes outside CAR" spreadsheet; explain more about the column; "New Value from Grade Processing"	Marietta/Santhana	1/17/07	2/14 Not started
Test the CAR screen by updating a value and one of it's associated dynamically updated fields	Robert	1/24/07	2/15 CAR screen tested and multiple, simultaneous updates are allowed. 2/14 Not started
Look for SR2 versions of the TRCD and TRCR screens. Now called YTD and YTB when the time comes for discussing these screens	John	1/24/07	2/14 Not started
Sending schedule for SR0D888/KBT processing	Daniel	2/6/07	2/14 Write Up Student Rec jobs – Donny
Sketch process flow for test scores: KBT/SR0D888/nDARS/input to SR0D40A including timing and forward to Deborah for final form	Marietta	2/6/07	2/14 In progress
Define format for test scores being passed from SR0D888 to nDARS for processing	Robert	2/6/07	2/14 Not started
Define format for batch transactions being sent from nDARS to SR0 (for ADM updates)	Marietta	2/6/07	3/9 Marietta has format of ADM trx's 2/14 Not started

DAUD/ nDARS Meeting Notes
3/14/2007

Determine if nDARS can process max of 8,000 new best test scores in time for update to SRS that same day	Marietta	2/6/07	2/14 In progress
See if courses taken during the summer before the students admit term are considered in repeat processing.	Robert / Randy / John	2/6/07	2/23(a) Email sent to Robert outlining discussion and requesting further clarification 2/23(b) Randy and John discuss document and further refine conditions 2/21 John begins a document to describe the Repeat processing vs Sequence violations discussed on 2/14 2/14 Major topic of discussion
RK212 Subject A/ESL/English Language	Santhana	3/12/07	3/14 Discussed 3/12 Added to this list but this task has been pending since early February
